Summary

Detail-oriented graduate with a strong foundation in Python, SQL, and database management. Proficient in data structures, algorithms and Object Oriented Programming. Gained practical experience through hands-on projects and courses, focusing on developing and optimizing software solutions. Dedicated to continuous learning and excited to contribute to innovative software projects in a dynamic tech environment.

Education

Bachelor of Computer Science

Virtual University of Pakistan | 2020 - 2024

Technical Skills

- Python, Java, C++, Pandas, Numpy, HTML, CSS, Bootstrap, JavaScript
 - Databases, SQL, PostgreSQL, DBMS
 - Version Control, Git, GitHub
 - Software Engineering, SDLC, UML, Quality Engineering, Testing, Debugging, Unit Testing
-

Projects

Portfolio Website: Personal Portfolio (HTML, CSS, JavaScript)

- Developed a personal portfolio website to showcase my projects, skills, and certifications with a clean, responsive design.
- Used JavaScript for interactive elements and optimized the layout for mobile and desktop devices.
- Highlights front-end development expertise and proficiency in creating user-friendly, visually appealing web interfaces.

Final Year Project: Intelligent Alert Android App for Business Scheduling (Java, Android)

- Developed an Android app to manage and schedule important business meetings, focusing on efficiency and reducing human errors.
- Features included secure manager authentication, meeting scheduling, timely notifications, and feedback collection from participants.
- The app facilitated secure data storage for departments, users, and meetings, enhancing communication and collaboration within the organization.

Web Layouts: Nutrition Table Layout, Café Menu Layout and Explore Pakistan Web Design (HTML, CSS, Bootstrap)

- Designed and implemented responsive web layouts, including a nutrition table, café menu, and "Explore Pakistan" website with navigation, carousel, detailed content and understand basics of Web Architecture.
 - Utilized Bootstrap for modern, responsive design, ensuring optimal user experience across devices.
-

Soft Skills

- **Problem Solving:** Solved over 150 HackerRank challenges focusing on data structures and algorithms.
 - **Analytical Thinking:** Optimized solutions in coding challenges and academic projects.
 - **Creativity:** Designed visually appealing and user-friendly web layouts.
 - **Additional Skills:** Time Management, Adaptability, Work Ethic, Collaboration, Ability to Work Independently and with team, Communication, Self-Motivation.
-

Certifications

- | | |
|---|-------------|
| • Associate Python Developer (DataCamp)
Mastered Python programming, including advanced concepts and real-world problem-solving. | August 2024 |
| • Python Programming Fundamentals (DataCamp)
Covered Python basics, control flow, and data structures. | August 2024 |
| • SQL Courses(DataCamp)
Introduction to SQL, Intermediate SQL, Joining Data in SQL | August 2024 |
| • Career Essentials in Software Development (LinkedIn Learning & Microsoft)
Learned industry best practices and the software development lifecycle. | July 2024 |
